# EXIT AND THE ENVIRONMENT

For years, EXIT has been engaged in raising awareness and activities for the sustainability of our environment, such as: [Life Stream](#), the guest appearance of the activist movement "Standing Rock" on the Main Stage of EXIT, [Green Я:Evolution](#), Green Guerrilla, the panel [Planet Earth Last Call](#), while in 2021 the Green EXIT platform was launched with a focus on recycling actions during the Festival.

# EXIT IN THE MUSIC FESTIVALS ASSOCIATION

In Amsterdam, at the ADE Green 2022 Conference for Sustainability, Innovation and Social Changes in the Music Industry, EXIT joined the [Green Deal Circular Festivals](#) association, which today counts over 50 European music festivals and has recognised EXIT as one of the [pioneers in event production](#).

**GREEN EXIT**

# EXIT AND INNOVATIVE ENVIRONMENTAL PROJECTS

EXIT, together with 50 international partners, including researchers, scientists and technologists, participates in [REMEDIES](#) and [INSPIRE](#), two innovative European environmental projects, which aim to heal the oceans, seas, rivers and other water bodies, through detection, collection and valorisation of plastic waste, and above all, through the prevention of new pollution. [INSPIRE: Together for Clean Rivers and Ocean](#) and [INSPIRE The Change](#).

# GREEN EXIT

## GREEN EXIT 2024:

- Four times more packaging waste was collected than in the previous year.
- In addition to the already existing recycling systems, a mobile system of packaging collection and reward activation for Festival visitors has been introduced for the first time.
- Guests of EXIT Camp had the opportunity to try out zero-plastic cosmetics through the INSPIRE project.
- Two significant innovations for energy efficiency have been installed in the EXIT Camp, signed by the "Mihajlo Pupin" Institute in Belgrade – solar panels in the shape of a guitar and solar water heaters in the form of vinyl records, with the help of which savings of 148 kWh were achieved during the five days of the pilot phase.
- Green EXIT 2024 Aftermovie
- As part of the Ecology Fair in Novi Sad, the REMEDIES conference "Beyond Plastic Waste: Are We Ready to Do Our Bid?" was organized, where we talked with representatives of the public and private sectors, experts and scientists about reducing the use of plastic and recycling plastic waste.

# GREEN EXIT FAMILY

Green activities are not only the focus of the EXIT Festival but also extend to other festivals from the EXIT family. At the Sea Star Festival in Umag in 2025, reusable cups made of bioplastic will be introduced for the first time. This endeavour is aimed at reducing the use of plastics, and consequently plastic waste, and is implemented as part of the European project [REMEDIES](#).

# TOGETHER WE ARE STRONGER

We invite you to join Green EXIT initiatives, in order to take a step together in the fight against the climate crisis, present solutions and innovations for sustainability, and inspire even more visitors and other interested parties.

THANK YOU FOR CHOOSING GREEN EXIT!

WE CAN ONLY DO THIS TOGETHER!
